

MAYA CHEN

Machine Learning Engineer & Data Scientist

maya.chen@email.com | (555) 789-0123 | Seattle, WA | github.com/mayachen-ai

PROFESSIONAL SUMMARY

Data Scientist & Machine Learning Engineer with 4 years of experience building predictive models and statistical solutions in Python. Proficient in classical ML, deep learning with PyTorch, feature engineering, and cloud deployment.

TECHNICAL SKILLS

Languages:	Python, SQL, R, Bash
Machine Learning & AI:	PyTorch, Scikit-Learn, TensorFlow, Pandas, NumPy, SciPy, HuggingFace
Cloud & Infrastructure:	Docker, AWS (S3, EC2), Linux, Git, Jupyter
Concepts & Methods:	Feature Engineering, Classification, Regression, Natural Language Processing, MLOps

WORK EXPERIENCE

Machine Learning Engineer Apex Data Corp	2021 - Present
- Developed and deployed classification and regression models in Python and Scikit-Learn, improving customer churn prediction accuracy by 22%. - Built customer sentiment NLP pipeline using PyTorch and HuggingFace, processing 500,000 reviews monthly. - Containerized ML inference services with Docker and deployed onto AWS EC2 instances. - Collaborated with data engineering team to design ETL pipelines in SQL and Pandas.	

EDUCATION

Master of Science in Data Science	2020
University of Washington	
Bachelor of Science in Statistics	2018
University of Washington
